

HarmonyCode â Help

Getting into the portal: create an account on the learning portal with your enrollment email, confirm if prompted, subscribe, then open curriculum units.

Each unit uses Point (one takeaway), Story (a human scene), and Lesson (steps you do). Live/on-site intensives are the spine; the portal carries continuity between sessions.

Integrity: submit your own work, cite collaborators and AI help, never commit secrets or production keys, and keep security/wallet drills on testnet unless staff authorize otherwise.
